Seville

We believe that the scent of orange blossoms and the intense blue sky stimulate the brain and are the true secret to our success. But there are more reasons to choose the Andalusian capital for a Spanish course:

- **The friendly and open character of the Sevillanos** and the attractive touristic and gastronomic offer.
- Seville was **declared UNESCO world heritage** and is one of the most beautiful and ancient cities of Spain. A long list of impressive monuments, parks and events are waiting to be discovered by you.
- Seville presents **a much more economical touristic and gastronomic offer** than other Spanish cities such as Barcelona and Madrid.
- Our **excellent climate** with over 300 days of sunshine per year and an average temperature of 18 degrees.
- Seville is **well connected by road and train**. In addition to its own international airport, it is close to the low cost airports Jerez de la Frontera and Malaga.
- **Located in the heart of Andalusia**, Seville is very close to some of the most beautiful destinations and cities in Spain, including the Costa del Sol, Malaga, Cordoba, Granada and Cadiz. It's also connected to Madrid by high speed train.

"Seville is one of the most beautiful cities I have ever visited"

JULIA FIGUEROLO

I recently started going to the Carlos V Language School and I really like it. I like that we are few students in class and make better use of the time. I also like that my teacher is a native speaker and she only speaks in her language with us. I chose the Carlos V Language School because of recommendations from friends who are studying English there and liked it a lot. The facilities are nice, everything is new and there are computers in the classroom. The team seems very qualified and everybody's very friendly, both at the reception and in the classroom (teacher). I recommend the school, because there is a good study environment where you learn with interesting activities that stimulate the learning process.

Qiaodi Mu

I chose the Carlos V Language School because I was attracted by its location, its connection and its new facilities with modern and very bright classrooms. But the most important reason to choose this school is the team of professionals. They conveyed reliability from the beginning and gave me the feeling that they can offer good quality classes. After the first class, I was thrilled. My teacher is very friendly and the atmosphere in class is pleasant and cheerful. The course covers all aspects such as vocabulary, grammar, listening comprehension and reading. In my view, Carlos V Language School is a highly recommendable school.

SCHOOL ACCREDITED BY THE Cervantes Institute

The Instituto Cervantes was founded in 1991 as a public institution to promote and teach the Spanish and Hispanic-American language and culture. The network of schools whose quality has been expressly certified by the Cervantes Institute extends over 90 cities in 43 countries on 5 continents.

For a language school, holding this accreditation guarantees our students a level of institutional excellence, required quality and continuous improvement.

Why choose a school accredited by the Cervantes Institute?

The accredited schools guarantee:

- that the school fulfils the legal and quality requirements established by the Cervantes Institute for the teaching of Spanish as a foreign language.
- that all publicity and marketing activities of the school are rigorous and true with respect to the offered services.
- that the teaching staff has adequate studies and training.
- that the school follows a curriculum that helps the students to progress.
- that the school provides clear information on pricing, conditions and complementary services.
- that the schools possess adequate means and resources for teaching.

The Cervantes Institute carries out regular inspections on the above mentioned points, on which the decision to renew the accreditation is based every two years.

At Carlos V Language School we offer a wide range of accommodation both with native host families and in student residences and apartments with shared or single rooms

accommodation **seville**

With a Spanish family:

There are several advantages, besides living in an immersion in every day cultural and traditional life in Spain, the student will have to speak Spanish with the family during their stay. A unique experience on how Spanish families live, communicate and feel.

Shared apartment:

The main advantage of this kind of accommodation will be the possibility of organizing their own schedule with their flat mates. It is also a cheaper option. They could share the apartment with other students, teachers or owners who decide to share their house. There can be shared or single rooms with either shared or en suite bathroom. As long as there is availability, students will be able to choose between the different options.

Student housing:

Single or double rooms with en suite bathroom in an academic atmosphere. It is perfect if the student wants to preserve their privacy. With no schedules so that they can organize their time individually.

Albergue:

Another option in high demand by student groups. It allows the group to stay together. It works for either small or big groups which could stay in rooms for 4,6,8 or 10 people, with shared or en suite bathrooms, and common zones as the kitchen, living room, etc.

Hotel:

The school has agreements and special fees with hotels around it in order to have the possibility of offering our students the best prices possible.
